Introduction

Mahmood Global Construction Company Group (MGCC Group) is a small construction company formed from the General Construction and General Contractors. The company has successfully operated in the Afghanistan area for the past Eight (8) years working on both small and large scale construction, repair, and alteration projects focusing on residential contracting. With the business boom that is occurring in our local area and the desire to improve overall profit margins, the company is planning to shift its target market from residential clients to the larger commercial customers. This business plan will lay out our goals and tasks to make this transition successful and create enough market shares to succeed in this highly competitive market.

Vision

To be the premier partner of choice in Construction by providing the most cost effective efficient and reliable service.

Mission

Quality at the most cost-effective price is the supreme core value of MGCC. It shall be manifested in the excellent result of our individual and cooperative work. It shall be our way of life. OUR aims is to contribute to the rehabilitation and development process of Afghanistan through the planning designing and undertaking of economic and humanitarian assistance to help the process of a smooth resettlement of returning Afghan refugees and IDPs into their rural communities.

- ✓ Proposal writing.
- ✓ Report writing.
- ✓ Principals of Survey.
- ✓ Survey and Design of projects
- ✓ Project management.
- ✓ Methods of effective Monitoring and evaluation
- ✓ System creation.
- ✓ Technical Programs of Computer

Know how we perform

We have high technology and experts in Mapping, Sketching, GIS and GPS.

MAPPING

For mapping we use such machineries:

- GPS positing points and units
- GIS, review 9-0 and 9-3
- Word global map maker
- Goggle mapping system

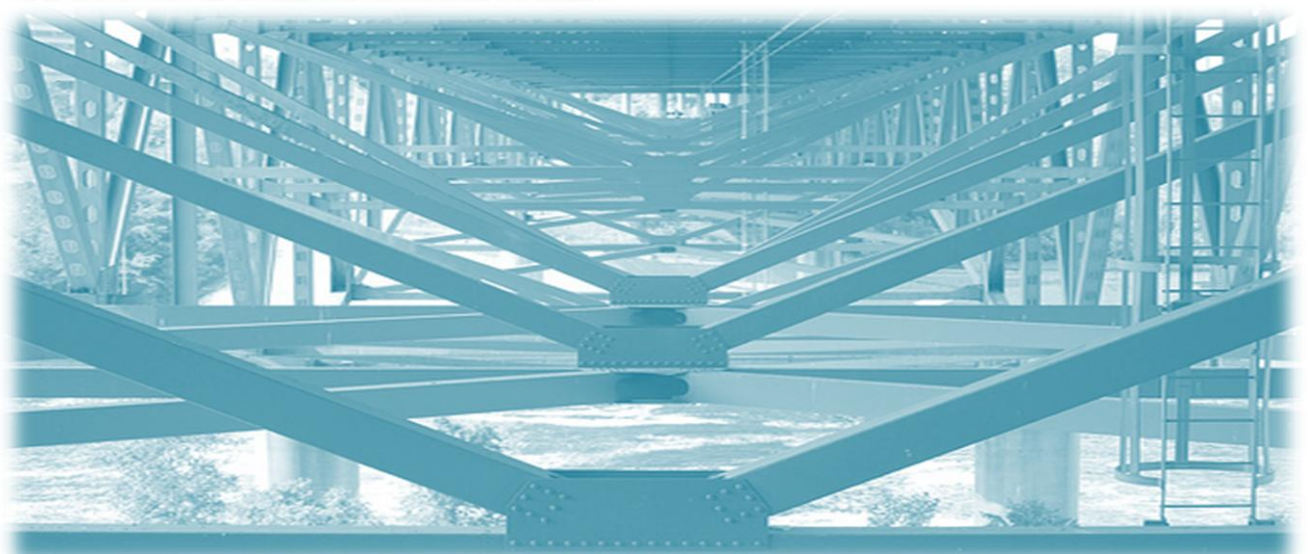

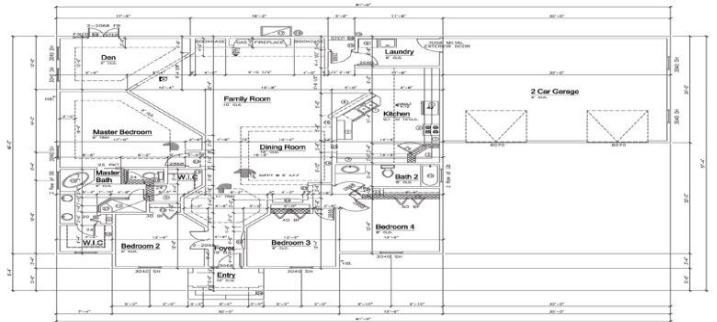

And much more software and hardware for best mapping.

Sketching

With best of our architecture engineers and our technical personals we perform Sketching using set below programs

- Auto Desk AutoCAD 2000
- Auto Desk AutoCAD 2002
- Auto Desk AutoCAD 2004
- Auto Desk AutoCAD 2006
- Auto Desk AutoCAD 2007/viewers and creators
- Auto Desk Auto Sketch 98
- Auto Desk Auto Sketch 2000
- Auto Desk Auto Sketch 2002
- Auto Desk Auto Sketch 2004
- Auto Desk Auto Sketch 2006 with full and compatible suits.

MGCC

COMPANY PROFILE

DESIGN AND BUILD

As a pioneer and leader in Design –Build heavy civil construction projects , MGCC Group is at the forefront of the growing national wave of delivering highways, bridges ,power plants, transit system and tunnel using the design build method.

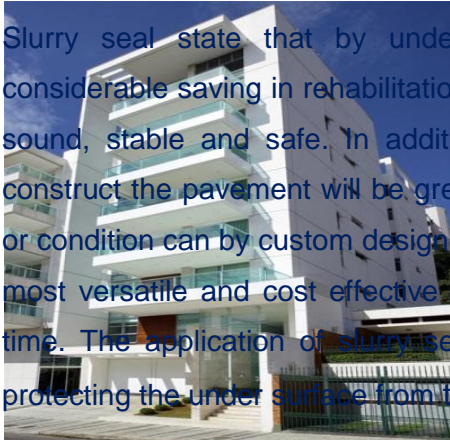

Design build is a process where an owner executes a single contract with one entity to provide design and construction services. The entity is a team of premiere construction, contractors often led by MGCC Group, and one or more civil designs firms. As a team, we partner with an owner to design and construct the projects in the short possible time And at a reasonable price to provide a high quality product that will serve users for the years and decades to come, Design-Build is a fast-track method where we start construction before design is completed. By working together, the team can be innovative in finding ways to quickly resolve issues that emergency Design Build also allows faster work Completion at substantial cost saving compared to the traditional process of design & build. Some of the nation's largest; most complex heavy civil projects have employed the design build method.

ADVANTAGE OF DESIGN-BUILD

- ✓ Time saving
- ✓ Single point responsibility
- ✓ Team ingenuity
- ✓ Reduced claim
- ✓ Ready access to new technologies

ROADWAY PROTECTION

Slurry seal state that by under tacking a program of planed pavement maintenance considerable saving in rehabilitation costs may be achieved. Your pavement surface will remain sound, stable and safe. In addition, extensive down time needed to repair potholes or re construct the pavement will be greatly reduced or eliminated. A slurry seal for nearly any need or condition can by custom designed to satisfy the most difficult requirements. Salary seal is the most versatile and cost effective way to preserve and protect you're paving investment over time. The application of slurry seal will significantly extend the life of existing pavement by protecting the under surface from the effects of aging and the environment.

PRODUCTION MATERIAL

Our company has done more than just process rock. With over stationary aggregate facilities, a hot mix facilities MGCC GROUP along with our facilities, is able to provide construction materials of exceptional quality. This capability in conjunction with our engineering services department provides every customer a product that meets or Exceeds required performance standards.

Our company realizes that to be better we must recruit and develop employees that have skills and talents to respond to the opportunities associated with the manufacture and sale of construction materials. We focus on developing employees from within, however our growth also owes us to seek qualified individuals from outside our company to contribute new ideas and approaches to mining, manufacturing and marketing of our products.

BRIDGES AND STRUCTURE

The challenge is maintaining or adding bridges and structures at a pace consistent with regional growth trends and capacity needs. MGCC GROUP provides a full –service approach to designing and renovating highway, pedestrian and other transportation structures to assist client in meeting today's travel demands. Our solutions incorporate traditional design and program management, as well as fast track and design /build project delivery.

EXCAVATION AND MINING

MGCC GROUP is a leading producer of aggregates, asphalt concrete and other construction material; being vertically integrated provides a key competitive advantage, allowing for long term success and diversity in all markets and construction sectors both commercial and residential. With over three stationary aggregate plants, one asphalt plant and ready mix plant MGCC GROUP along with our affiliates are able to provide construction materials of exceptional quality.

Cell Phone:

MGCC

This capability in conjunction with our engineering services department provide every customer a product that meets or exceeds required performance standards .from patios to airport and runways our concrete operations supply products that will perform for years to come. To achieve optimum performance aggregates used for Asphalt paving must be crushed and sized to demanding standards that require skill and attention to detail not commonly found in our industry.

UNDERGROUND PIPE AND UTILITIES

MGCC Group has always been considered an innovator in construction method. Over the year we have gained a reputation for being able to handle the tough underground jobs as well. MGCC Group is capable of installing every type of underground pipeline: cast iron, asbestos cement, concrete: steel and plastic – gas mains: water, sewer and drainage lines; steam distribution above and below ground; telephone and electric cables, including direct burial or become more complex an critical, MGCC Group has kept ahead to ensure the highest productivity with the maximum cost effectiveness

Organization

- ✓ Decision making council/Board of directors.
- ✓ Executive section with an executive director discharging its functions.

Though the following sectors. Programs sectors consist of the following departments engineering construction and rehabilitation section.

- ✓ Financial reports.
- ✓ Represent MGCC Group on various occasion fund properly
- ✓ Spend the available/ allocated fund properly
- ✓ Recruit, promote all dismiss stuff in accordance with rules and regulation of the MGCC Group.

Cell Phone:

CLIENT COMES FIRST

For MGCC GROUP the client comes first, we established a highly responsive management team to collaborate with the clients at any time of the delivery process and set up highly technical procedures to make sure that the client is provided with the highest quality service. We believe in this new professional vision to rebuild together, both with the international community and the Afghan government. MGCC GROUP is owned by very talented and experienced business men with huge experience in the field, MGCC GROUP has established business relations with all the other business owned by the

same group, strengthening our resources and supply chain. MGCC GROUP has generally followed a policy of organizing specialized cargo and fuel handling services by deployment of equipment on contractual basis to deliver it on time and high quality; we developed our system with new technology beside unlimited supervision, Regarding our international staff they are mainly recruited for their professional skills to provide their expert advice and training to the local Afghan nationals for their capacity building in different sectors, such as finance, administration, marketing, etc Our senior management team is strong enough and capable of handling more than projects in one time with all the contractual requirements

Dear Sir,

I have been asked to email you to give you a reference for MGC/PCP
Parwan Corix/Mahmoob Global.

I am the President of OMordha Construction and the Vice President of Hamdard Cordova Group.

I used MGC/PCP as a subcontractor on the Dyncorp ACAS program contract number 09-ACAS- 0032109-GARRTC-022 in Gardez PProvince of Paktia 2009.

MGC/PCP constructed 3 buildings on this site in a timely manner.

The project conditions progressed smoothly according to schedule.

MGC/PCP's work ethic and attention to detail was very professional at all times. Their Engineers were highly regarded by the Client during site visits.

MGC/PCP was able to work with me on all occasions. I found them helpful on logistics, delivery schedules, engineering, cost control, material specifications, material purchasing and security.

MGC/PCP was able to work under extreme security conditions and never failed in their endeavours to overcome these issues. We were under fire daily in Gardez and I never saw a day when MGC/PCP did not turn up for work.

I never had a complaint on any aspect of their work in fact I had good comments from the Prime Contractor and the Client.

There are very few Afghan Companies that have reached the level of a Western run construction company. MGC/PCP is one of those Afghan Companies that has that ability to see a Construction Project through to the end and behave very honestly in their invoicing and material supply.

MGC/PCP executes their projects with highly capable Quality Control Personnel, Schedulers, and Engineers

If you feel you want to discuss this referral please give me call on 070786988999.

FINANCIAL CONSIDERATIONS

(MGCC) has only a small amount of debt and intends to stay that way. We expect to see increased profits from our market shift efforts by the end of Year 5. Over the next three years we expect lower profits as we make inroads into this tough market. We estimate that we will be able to reduce marginal costs and increase overall profitability by Year 6 or Year 7 as we grow and take advantages of economies of scale.

Mahmood Global Construction Company has been providing their clients with reliable solutions to their most complex construction challenges. Today, we are recognized as a regional leader in the industry, for our strength in traditional construction methods and for our creative, fresh approach to cutting edge technologies, construction and delivery systems. Our expertise spans the construction industry spectrum, from smaller renovations to multi-million dollar projects. We specialize in healthcare and industrial facilities, commercial, institutional and educational buildings, telecommunications and data centers, as well as infrastructure projects such as water and waste water treatment plants.

Our success is driven by more than building some of the most advanced facilities for our corporate, institutional and government clients. More and more of our clients are turning to us for our distinctive ability to implement innovative project management techniques and to serve as a reliable provider of knowledge-driven solutions for their complex construction projects.

Our team of construction professionals offers a single source solution for all of your construction related needs. Whether its restoration, site preparation, a new facility or facility renovation, we have the experience and personnel to provide the highest quality construction on schedule and within budget. We support our clients from project inception, to the commissioning of the fully operational facility. And our network of local offices enables us to offer our clients the dual advantage of a strong local presence and broad geographic reach.

SAFETY PLAN:

(MGCC) safety officer for this project will be responsible for preparing the safety and accident prevention plan. The plan will contain the following information.

- ✓ Scope of work
- ✓ Project Work Site
- ✓ Emergency Information
- ✓ Safety personnel – names & qualifications
- ✓ Lines of authority – authorization letter from company management
- ✓ Training
- ✓ Safety program goals
- ✓ Safety program objectives
- ✓ Accident prevention goals
- ✓ Mgmt. organization
- ✓ Project Layout
- ✓ Accident prevention responsibility
- ✓ Sanitation
- ✓ Housekeeping
- ✓ Material Storage
- ✓ Fire protection & prevention
- ✓ Hoisting Equipment & rigging
- ✓ Construction Equipment & plants
- ✓ Small Hand & Power Tools
- ✓ Electric Lighting & Security
- ✓ Hazardous Substances
- ✓ Protection of the public and traffic control
- ✓ Purpose of the environmental protection plan
- ✓ Confined space entry

Our safety program is proactive and action-oriented; everyone from management to trades people is involved in making a zero-incident workplace a reality. We use daily pre-task planning sessions, ongoing safety inspections, weekly safety meetings, safety seminars, special equipment training, safety manual reviews and email updates to assist in attaining our goal of zero incidents.

Our supervisors receive training in the OSHA 30-hour Construction Outreach Program, as well as classes in Fall Protection, Excavation and Trenching, First Aid, CPR and Confined Space Entry Procedures, Substance Abuse Awareness and Recognition. New employees are required to complete our New Hire Safety Orientation Program.

Cell Phone:

Our substance abuse program includes Pre-hire, Post Accident, Fitness for Duty, For Cause and Random Drug and Alcohol Testing. All employees, including management, are subject to random testing equal to 25% of our annual workforce.

Our safety culture at (MGCC) focuses on keeping motivational messages and emotions at the forefront of everything we do - every day. Family-oriented messages remind us to keep safety at the top of our minds with posters and banners placed throughout our projects.
