Have peace of mind in a cleaner, safer environment by allowing TGC Treatment Company to clean, sanitize and protect your farm, grow rooms, cure rooms and offices 24 hours a day, 7 days a week. TGC with BioClean offers unmatched bacteria, fungus and virus mitigation. We work hard to eradicate any traces of germs and toxins from the air and surfaces in any environment.

When it comes to premium bacteria and virus mitigation, mold remediation, air and surface decontamination, there is only one team you can trust.

The TGC Treatment Team

# FLOWER & SURFACE DECONTAMINATION

Our process is called Photo Catalytic Oxidation (PCO). This process is chemical free, converting ambient air into a DRY PEROXIDE VAPOR. The peroxide vapor does not bleach or bleach, will not dry, damage, harm Terpenes, or change the odor or THC levels of the flower whatsoever. The peroxide molecule is the oxidizing agent that strips down any carbon-based molecule to a cellular level and eradicates it. Including yeast, mold, E. coli, Salmonella, microbes and all contaminants. We stand behind our services and will re-treat any 10lb. batch that does not pass testing at no charge.

Remediation

# DAILY DISENFECTION

 **BIOESQUE™**

## BOTANICAL DISINFECTANT SOLUTION

Lemongrass Grapefruit Scent

Kills 99.9% of Bacteria, Viruses\*,  
Fungi & Molds

Kills Norovirus In Just 4 Minutes

Eliminates 99.9% of most Allergens<sup>5</sup>

No Rinse Required, even on Food-Contact Surfaces

Sanitizes Soft Surfaces In 2 minutes

Kills Odor Causing Bacteria

Heavy-Duty Cleaner and Disinfectant<sup>1</sup>

Bactericidal • Virucidal\* • Tuberculocidal • Fungicidal

## SERVICES

Mold/Yeast Remediation

Bacteria and Virus Mitigation (COVID-19)

Air and Surface Decontamination

Surface Protectants/MonoFoil, 24/7 PROTECTION AGAINST  
ALL BACTERIA, VIRUS, FUNGUS, AND ALL CONTAMINATES.

Air Quality Testing

Grow Rooms

Clean Rooms

Cure Rooms

Trim Rooms

Offices

General Buildings

Equipment

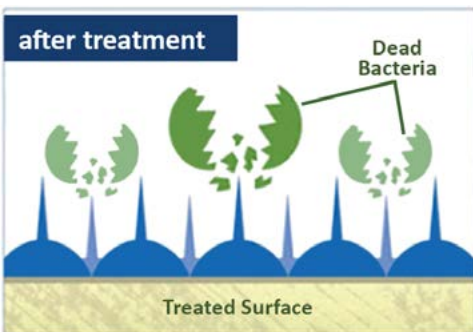

Vehicles

# SURFACE PROTECTION

As the bacteria, virus or fungi contact the polymer matrix, the membrane is ruptured, exposed and destroyed.

Coeus offers a broad spectrum antimicrobial protection for all surfaces against harmful viruses and bacteria. The antimicrobial barrier can last for **WEEKS, MONTHS, even YEARS** when properly applied.

The Coeus molecularly bonds to any substrate including stainless steel. Coeus provides durable surface protection, continuously working **24/7**, to inhibit the growth of microbes.

Coeus will not wash off or wear away for weeks, months, even years and may be reapplied.

**KILLING ALL CONTAMINANTS AND MICROBES 24/7, WITH A 3 MIN. DWELL TIME!!! INCLUDING COVID-19**
