Microblading

Total price \$400.00 which includes 2 sessions Duration period: up to 2hours

Microblading eyebrows is a semi-permanent tattooing technique that creates hair like strokes to fill in spaces of thinning eyebrows. The light strokes allow you to camouflage missing eyebrow hair with the appearance of simulated hair using fine deposits of cosmetic tattoo pigment. This technique allows you to have natural looking beautiful brows for up to 1 to 3 years depending on your skin type.
