March Newsletter

With spring just around the corner, keep your skin glowing this month with The Powder Room! As you wait for warmer temperatures to arrive, we'd love to help keep your pretty skin looking incredible, so we're here to shower you with unique facials, luxe skincare, effortless makeup, and gonna-wow-you-brows. Let Karli help you get started with our Foaming Enzyme Facial to reveal a glowingly clear complexion and then follow up with a little iS Clinical to keep the glow going. Additionally, Kelly and Cara have chosen some fabulous seasonal finds from favorites like girlactik's Matte Bronzer in Cabo, and Metallic Shadow sticks that should help you transition to the much-anticipated thaw and add that Spring glow! Stick with us, and we'll get you on track to have a pamper-your-pretty-self start to spring that you won't soon forget!

Kelly's Picks

Brow Lamination Sculpt & Tint

Fluffy, fuller brows continue to thrive in 2022 – the bushier, the better! Keeping in step with the Spring trends this month, we have decided to showcase the service that helped launch The Powder room so many years ago but with an added twist! Brow Lamination, Sculpt & Tint is an innovative treatment that is very different from microblading, and The Powder Brow and Kelly is here using her expertise to keep you on-trend this coming season. Also called a brow lift, brow lamination is designed to give the illusion of fuller, more defined eyebrows. Brow Lamination uses your natural brow hair without placing any pigment into your skin. Your hairs are coaxed into place using chemical and fixing solutions to look fluffier and more defined while also having a slicked-up, shiny look. Unruly brows are now perfectly manicured brows! This is an excellent alternative for those with more brow hair who want the structure of microblading or The Powder Brow but without the commitment of those treatments. Brow Lamination lasts for 6-8 weeks, and you also have the option to have your brows tinted as well. Schedule your appointment with Kelly now to complement your newly glowing skin and get fuller brows this month with Brow Lamination and The Powder Room!

Metallic Eye

No more limiting metallics to just one or two seasons a year! Metallics will be huge year-round, and The Powder Room will be here to help you amp up your look without having to be a pro. Big on color, small on cost, girlactik's Metallic Shadow Sticks will make your eyes pop for a glowing, bedazzled look that will surely get you noticed! Lightweight, long-wearing, and crease-proof, these velvety sticks come with a built-in sharpener and are available in 11 shades that transform your lids to a pearlized or sparkling finish. You can go for a light, sheer wash with a swipe and a smudge; layer for a greater, smoky intensity; or dab with one of their metallics for a sparkly eye that's not too over-the-top. And no Dramatic Metallic Eye look is complete without a stunning pair of lashes! Luscious Lashes from Scott Barnes will help you achieve a dramatic false eye look without that dreaded thick, black lash band. Made of luxurious mink, Luscious Lashes will give you volume, length, and thickness like you've never seen. Keep heavy metal alive this season with a bit of help from girlactik, Scott Barnes, and The Powder Room!

Karli's Korner Treatment Specials

Foaming Enzyme Treatment Facial

Finish out this moisture-zapping winter and add the GLOW back to your skin by reviving a dull complexion with our potent Foaming Enzyme Treatment Facial! Renew radiance and tighten pores with cutting-edge enzyme action that will help deep clean reveal a glowing radiance you might not have seen in several months. This professional treatment combines papaya and pineapple enzymes with a potent, botanically-derived Glycolic Acid to reveal a polished, more radiant complexion. The foaming masque is lightly massaged onto the skin while steam helps it to diffuse further. A light mist and hydrating serum are applied, followed by an intensive cooling masque. The Foaming Enzyme Treatment Facial is suitable for all skin types, and our newest treatment will leave your skin clear and glowing for days on end without any irritation. Foam your way to brighter skin and start our following equinox with a little glowy spring in your step with our Foaming Enzyme Facial! \$175 for 60 minutes.

Karli's Korner Product

iS Clinical

iS Clinical® Cleansing Complex

Multi-task your way to brighter, glowing skin this winter with Cleansing Complex by iS Clinical®! Incorporating a balance of bio-nutrients and mild resurfacing ingredients, Cleansing Complex thoroughly cleanses the surface of your skin and removes all traces of makeup without stripping essential natural oils. This Harper's Bazaar 2021 Anti-Aging Award winner blends salicylic acid, herbal extracts, and antioxidants to minimize pores, protect against environmental damage, and gently exfoliate for softer, smoother skin. Cleansing Complex's lightweight clarifying formula is paraben-free and doubles as a toner and mini-masque for a powerful yet gentle clean safe for all ages and skin types. Make this multi-tasking cleanser a part of your daily routine and see the benefits of what iS Clinical® can do to keep you glowing this month!

iS Clinical® Youth Intensive Crème™

Be intensely youthful without all of the added angst when you turn back the hands of time with Youth Intensive Crème. Extraordinarily rich and luxurious, this anti-aging formula helps to reduce the appearance of fine lines and wrinkles as it provides powerful 24-hour hyaluronic hydration. This clinically proven transformative crème scientifically combines the most effective botanically-derived moisturizers, antioxidants, resurfacing acids, and growth factors into one multi-tasking product to reveal brighter, glowing skin. Instant gratification is delivered when skin is rapidly plumped and smoothed, and delayed satisfaction is attained as your now glowing skin increases its collagen over time. End winter on the right note and intensely improve the appearance of your skin with Youth Intensive Crème™!

Cara's Confidential

Winter Makeup Trends Glitter, Gloss, Contour, and Blush

We're making life a little easier for all of you out there! Just four must-haves will help achieve these two winter trends that will have you happily traipsing into spring with ease. Focusing on the eyes, use girlactik's Metallic Eye Sparkle Shadow to showcase your pretty peepers. Lightweight and easily blendable, this metallic crème shadow creates a no-fall-out sparkling finish that wears all day long. Next, use girlactik Matte Bronzer in Cabo as a contour to structure and slim your face. Silky-smooth and natural-looking, this bronzer perfectly sculpts and delivers instant warmth. Layer jet-milled FaceATELIER's Ultra Blush for a healthy glow for a believable flush that won't crease or look cakey. Long-lasting and non-comedogenic, this blush contains micronized pigments and silicone, which makes it ideal for mature skin. Finish both looks with Hydrating Lip Plumper by Lucy & Co in clear gloss. Improving your pout's overall shape and volume in under 15 minutes, this cutting-edge formula contains tiny microspheres that carry active ingredients that break upon application on your lips, making them look luscious and full. The transition from winter to spring effortlessly by scheduling your appointment with Cara through our convenient Booker app!

Glitter and Gloss

Start your Winter Makeup Trend with girlactik's Metallic Eye Sparkle Shadow to showcase those pretty peepers. Lightweight and easily blendable, this metallic crème shadow creates a no-fall-out sparkling finish that wears all day long. Next, girlactik Matte Bronzer in Cabo is great as a contour to achieve believable structuring of your face. Silky-smooth and natural-looking, this bronzer perfectly sculpts and delivers instant warmth. Layer jet-milled FaceATELIER's Ultra Blush for a believable flush that won't crease or look cakey for that healthy glow. Long-lasting and non-comedogenic, this blush contains micronized pigments and silicone, making it ideal for mature skin. Finish both of our looks with Hydrating Lip Plumper by Lucy & Co in clear gloss. This cutting-edge formula contains tiny microspheres that carry active ingredients which break upon application on your lips, making them look luscious and full, improving the overall shape and volume of your pout in under 15 minutes. The transition from winter to spring effortlessly with The Powder Room – super easy with these four must-have products!

**And, as always, don't forget to pamper your pretty self!
Love, Kelly**
