#### Cor Soap & Priva Apotheca Bliss Renewal Serum

Foam, rinse, and glow this month with a little bit of silver, but not the kind you wear on your wrist! Ordinary harsh soaps and chemicals can leave your skin dry and stripped of moisture which is the last thing you want during the brutal temperatures of summer. Cor Silver Soap is different than other cleansers in that it matches your skin's pH while delivering nutrients and hydration as it cleans. Nourishing vitamins from jojoba, avocado, and aloe combine with Cor's unique Japanese CSC compound and other natural ingredients to cleanse, tone, and help your skin regain its youthful smoothness. For maximum benefit, their patented Silver-Silica compound draws these healthy ingredients more deeply into the skin's cells for beautiful and glowing skin. Forget gold and platinum and invest in some silver before your wedding day – your face will thank you!

Since we're all about bliss and definitely about renewal (inside and out), combine the two this month and try Priya Apotheca's Vibrationally Alive™ Bliss Renewal Serum. Their CBD Skincare line uses over 20 plant botanicals, hemp-derived CBD, and scientifically proven actives to help your skin look its best. In addition, each batch is transformed using reiki, mantras, Tibetan bowl sound baths, and alignment with the lunar cycles to unify science and spirit. Their Bliss Renewal Serum will change how you feel about your skin by soothing redness and sensitivity, softening fine lines, smoothing skin texture, and fighting skin blemishes to help reveal your inner glow and boost radiance. If you're getting married soon or just want to improve the overall look of your skin, awaken your senses and recharge your skin and spirit this summer with Priya Apotheca and their Vibrationally Alive™ CBD Skincare!

### Cara's Confidential Blush Toned Bridal Makeup

Ahhh, who doesn't love it when Andie and Blane end up together in Pretty in Pink? We have another take on pretty in pink that we'd love to share! One of the significant statement makeup trends for brides in 2022 is blush tones – soft and feminine in pink, blush, mauve, and berry. The heavy Instagram contouring, bold brows, and matte lips are being replaced by a more au natural look that enhances, rather than conceals, a bride's natural beauty, which aligns perfectly with our philosophy at The Powder room! Let The Powder Room help you find the best products for you to be the prettiest in pink your groom has ever seen on your wedding day or next big event!

#### Pretty In Pink ( Blush Tones )

Begin your quest to find your inner Andie with La Bella Donna's Vision of Mineral Lights Compressed Mineral Quad in Blushing. All the shades in these luminous quads of color give your skin an après sun-kissed glow. They can also be used as blush to give your cheek the perfect bridal flush and eyeshadow to create a stunning look that will have your groom speechless. Next, apply that Pretty in Pink pout with FACEatelier's Lip Pencil, offered in twelve wearable colors like Love and Glacier Pink. Their smooth, creamy pencils are ideal for precise application and will prolong lip color and extend the life of your lipstick, LBD's Mineral Light Lip Color in shades ranging from Beloved to Tranquil Pink to complete lips that are beyond luminous and lush. The rich and creamy texture has a satiny finish that, when combined with mineral pigments, produces a long-lasting color that continues to condition even after the color disappears, which is essential on your wedding day! They most assuredly will also decrease how often you'll need to reapply your lipstick – who has time to reapply lipstick when you're having your First Dance and throwing the bouquet? Let The Powder Room get you Pretty in Pink for your Big Day, and you'll look so amazing; maybe the Psychedelic Furs will write a song about you too!
