Your Budget

(Wedding is a production, it takes a team, 4 days from start to end, sometimes longer for budgets over \$15,000)

Average wedding flowers starts at \$3,000

Most common budgets \$6,000 - \$15,000

Our Max \$50,000

The hardest part of determining pricing for event floral design is that it is custom to each event. It is very difficult to give a blanket pricing structure or an exact package price.

Many factors go into determining the final price of an event's florals. Season, quantities of blooms needed, floral color choices, actual flower choices and design complexity all have an impact on the floral bottom line. That is just a few of the variables to consider when pricing wedding flowers. There are many other things that impact pricing as well.

Because Tropic All Blooms N More is committed to providing our clients with the best possible service, blossoms, and attention to detail, we have required a minimum starting budget of \$3,000

WE OFFER DISCOUNTS TO HELP YOU MEET YOUR BUDGET
