

**ECO. QUIET. POWER.**

**Why go GreenGO Services?  
We are an “AMP-Powered” team, ready to get things done!**

GreenGo Services is a family and professionally operated electric home and lawn care company using all eco-friendly machinery, producing zero emissions, resulting in reduction of our carbon footprint on your home and lawn care routines. You can expect a clean team on your property and lawn at all times!

As business owners we strive for perfection and a healthier, more comforting lifestyle by choosing **EGO POWER+** products. Our business model allows us to provide clean operations with overall low noise and emissions reduction. Our electric equipment provides consistent torque, allowing for reliable and precise results every time.

It is for those who want to see a positive change and strive to make an immediate impact in both their lives and their lawns.

Our scalability in electric equipment can be used for both small and large-scale projects, providing flexibility for different client needs.

- The mowing height will be according to the type and variety of grass.
  
- Clippings will be left on lawn as long as no visible clumps remain on the surface. Large clumps of clippings will be distributed by our electric blower or collected and removed by the GreenGo Services team.
  
- Sidewalks, driveways, parking spaces, and other surfaced areas that are border by grass will be edged.
  
- GreenGo Services team will clean all clippings from sidewalks, curbs, and roadways immediately after service is completed to ensure a clean & crisp look!
